EDMONTON BULLETIN JULY 2nd, 1902

LIBERAL BANQUET.

The banquet given, on Friday night,
by the Edmonton Young Men's Liberal
Association, in honor of Mr. Frank
Oliver, M. P., representative for Al-
berta in the Dominion parliament, was
very largely attended.

Mr. Walter Scott, M. P., Dominion
representative for West Assiniboia, and
the Hon. A. L. Sifton, M. L. A., minis-
ter of public works, for the Northwest
Territories, who had been invited to do
honor to the guest of the evening, were
present.

The banquet was served in the hand-
some and spacious new dining room of
the Queen's. The band in an adjoin-
ing room played selections.

When the covers were removed Mr.
Cross, the president of the association,
rose to welcome, in the name of the
liberals, Mr. Oliver, the guest of the
evening, and to express their apprecia-
tion of Messrs. Scott and Sifton com-
ing to assist in doing honor to Mr.
Oliver. Gratitude to the liberal as-
sociations of Northern Alberta, for
the assistance of their members, was al-
so acknowledged. Mr. Cross said that
previously the demands of the west
were not recognized or appreciated by
the eastern members of parlia-
ment but last year there came a change.
For the first time the value of the
western members was recognized. For
their opinions on western subjects, The
young liberals recognized the efforts of
Mr. Oliver during last session, especial-
ly in connection with railways matters.

The first toast proposed was "The
King," which was responded to in the
usual patriotic manner.

The toast, "Our Guest," was received
with great applause. Mr. Oliver
said that while he felt flattered at the
reception accorded to him he was not
concoited enough to think that it was
all on his account. In a country like
this where the people are the government
it is only fitting that a triumph at
the polls and the success of the policy
thereby achieved should be an occasion
of mutual congratulation.

Mr. Oliver claimed that the present
prosperity of the country is no outcome
of chance. To the government of the
country is due, at least some of the
credit. Comparing the results of two
opposing lines of government policy, he
said, the situation was similar to
that of two teams leaving Edmonton
for the Athabasca Landing, each with
the same load, and horses of like qual-
ity and condition. One team arrived at
its destination and the other did not.
The result was due to the good man-
agement of the successful driver who, al-
though he did not add one
pound of force to overcome the diffi-
culties, still by good guidance and man-
agement he succeeded where the
other failed. The speaker claimed
that the present prosperity, never be-
fore equalled in the history of Canada,
was largely due to the good
leadership of Sir Wilfrid Laurier
and his government. (Applause.)

Many changes had taken place with-
in the last few years. The soil and
climate were the same 20 years ago as
now. At that time there was a
great rush of immigration into the
Northwest. There was a railroad
building, the same which is here to-
day. That condition did not continue.
We had a period of stagnation, when
this was the last country to be thought
of. It is not nice to say so, but this
was due to the administration of public
affairs from '83 to '95.

Alluding to certain votes cast against
the government policy he said; You ask
me if I think the present govern-
ment good—why I have voted against it.
It is because on those occasions I
thought that the interests of the con-
stituency demanded the vote I
gave. When the time comes
to vote the members who do not rely
on his own judgment is a poor repre-
sentative. (Applause.) Mr. Oliver an-
nounced that he would be pleased to vote
for a measure proposed by the conser-
vatives if that measure was in the in-
terests of this district, but he
had not often been placed in such
a position. He reminded his
friends that he had been elected as an
independent liberal, but did not wish
anyone to think he was any less liberal
because independent, nor any less indepen-
dent because a liberal. He referred to
the time when in this country he was
a marked man because of his liberal
principles. According to Mr. Oliver's
ideas the term liberal meant progres-
sive and anyone who was not open to
receive and carry out new ideas must
be conservative. As a party, Mr.

Oliver had nothing to say against con-
servatives, to whom all credit for loy-
alty and integrity was accorded by him
and from whom he asked the same
consideration.

The present immigration to
this country from all parts
of the United States, Great Britain,
Europe and other countries, was no
accident, but the result of a well
defined immigration policy, ably car-
ried out. He pointed out that through
the action of the government cream-
eries had been placed on a satisfactory
basis and that as a result of these
operations conditions had been created
which made the success of private in-
dividuals now possible where there had
been only failures before. Again,
referring to the oat crop of
last fall, the government had, through
its exertions, caused a ship-
ment to be made to South Africa.
The price had thus been raised,
from 19c last fall, to such fig-
ures that had never before been real-
ized in the history of Alberta, and had
thus opened up an export market as
wide as the world. (Applause.) The
land policy of the government was to
give every man what he was entitled
to because he was entitled to it, not
because he had a pull. As far as the af-
fairs of this district are con-
cerned, the support given to
the government and the leader of the
party has been fully justified. If he
had not stood by the government he
would not have been doing his duty to
his supporters. But at times when he
had not supported the government it
was because he felt it to be
his duty to do as he had
done and he was prepared to stand
or fall on the merits of each individual
case. Although he had every
respect for the great minds
who led parliament, as far
as the west was concerned he knew
more about it than they did, having
been so intimately connected with it
for so long, therefore if he did not tell
them what he knew he would be mis-
leading them. (Applause.) The vast in-
terests at stake, affecting the whole of
Canada, demanded every precaution to
guard against mistakes. Continuing,
Mr. Oliver said he had no explanation
to make and no apology to offer
for his course in parliament. (Ap-
plause.)

Mr. Oliver said he owed a great deal
to his friend, Mr. Walter Scott, for his
support at Ottawa, and also to Mr. A.
L. Sifton for his assistance during two
elections. In conclusion he said that he
had supported the general policy, ad-
ministration and leadership of the lib-
eral party because he believed that that
policy administration and leadership
was the best that offered in the in-
terests of the district. (Applause.)

During the interval the band per-
formed a selection.

The toast, "The Dominion House of
Commons," coupled with the name of
Walter Scott, M. P., for West Assin-
iboia, was received with great applau-
se. Mr. Scott was loudly cheered on rising
and in a very agreeable speech, expressed
the pleasure of being present and of
having an opportunity of seeing, for
the first time, this part of Canada, and
particularly for the privilege of assist-
ing to do honor to the member, who in
the short space of six years has become
known as one of the ablest
members of the house of commons. The
arguments set up before the
last elections have been justified by
the subsequent occurrences. It would
be foolish for the party to claim that
all was due to their policy. A great
deal was due to prudence and the en-
ergy of the people. Still at the same
time some credit is due to the govern-
ment. In '96 some said if Mr. Oliver
were elected, disaster to the district
would be the result. With regard to
prosperity, in '96 Mr. Foster laid an
array of figures before a meeting at
Toronto to demonstrate the prosperous
condition of Canada. Sir Wilfrid Laur-
ier in his reply said "let the farmer put
his hands in his pockets and if prosper-
ity is not there it does not exist." To-
day, from the Atlantic to the Pacific
there is such prosperity as never be-
fore existed. The trade of Canada,
which in '96 amounted to \$239,000,000,
last year amounted to \$406,000,000;
being an increase of 30 million a year
for six years. (Loud applause.)

Homestead entries for the Territo-
ries, which amounted to only 2,000 a year
for several years, last year amounted
to 15,000. In the Edmonton office alone
there were 2,200, surpassed by but one
office in the country, which "I am
proud to say was in my own town of
Regina with a total of 2,400." This
satisfactory condition exists all over
Canada. Mr. Scott said, "I can
tell you that Mr. Oliver is a
worker and one of the hardest workers
in the house. He has a large district,
and attends to more business than I
would care to." In the east, an area
that would have from 20 to 30 mem-
bers to deal with its affairs is served
by four in the west. In the west the
conditions are so peculiar that it is a
necessity that the members should have
ample latitude allowed them to exer-
cise their own judgment. The reason
that the western members were able to
accomplish so much during the last ses-
sion was because they stood together.
The Red Deer Railway Co. bill was de-
feated by the exertions of the four
western members who saved 352,000
acres of land, worth a million dollars,
which was to have been given for build-
ing 55 miles of road. (Applause.)

Mr. Scott, before resuming his seat,
said that Edmonton and Strathcona
were the most beautiful town sites he
had seen in the west.

Selection by the band.
The president, in proposing the toast,
"The Alberta Liberal Association," cou-
pled with the name of the
Hon. A. L. Sifton, said that
they were deeply indebted to
that gentleman for having done more
to assist Mr. Oliver during the elec-
tion than any other man. Mr. Sifton
was president of the Alberta Liberal as-
sociation, and incidentally commis-
sioner of public works for the Territories.
To-night they welcomed him in his
former capacity and claimed him as a
liberal of the liberals.

Mr. Sifton was loudly cheered and
was repeatedly interrupted, during his
able and eloquent speech, with rounds
of applause. He said that it was
somewhat peculiar that two members
of the house of commons supporting the
government should have argued so
strongly for independence of a party
while he a member of a strictly non-
partisan administration should be
called upon as a liberal of the liberals.
He agreed, however, that the difference
of conditions in the west required a
certain freedom of action which would
not be practicable or desirable under
other conditions. Mr. Sifton im-
pressed on the listeners that
Mr. Oliver had done much for the
district. And pointed out
the change that has taken place
throughout the country at large since
'96.

The president proposed the toast of
"The Legislative Assembly," coupled
with the names of Messrs. Rosenroll,
Rutherford and Scott, M. L. A's.

Mr. Rosenroll responded by con-
gratulating the government
on their action as regards
creameries and laid stress on the ad-
vancement of trade since '95 when cat-
tle were unsaleable. Whereas to-day
there is a good demand for cattle at
satisfactory prices. He stated that
much of the past stagnation had been
caused by want of statesmanship and
foresight on the part of the politicians
whose blunders took generations to
overcome. He held up Italy as an ex-
ample. A country where the soil was
excellent, the climate the finest in the
world but with an unhappy people, who
were now suffering from the effects of
non-statesmanship in years gone by.
Canada had the chance said Mr. Rosen-
roll of being made a model country.
But for a lack of looking ahead blun-
ders had been committed in the early
administration which might take gen-
erations to repair.

Mr. Rutherford, M. L. A., for Strath-
cona, endorsed the opinion of the former
speaker and was fully in accord
with the sentiments expressed by Mr.
Oliver and Mr. Sifton. "Being the
youngest member of the family" and
the hour being late, Mr. Rutherford
closed his remarks by expressing his
pleasure at being present on such an
occasion.

A vote of thanks to Mr. Cross, pro-
posed by Dr. Tierney, for the very able
manner in which he had filled the
chair, was carried unanimously.

This most successful entertainment
was brought to a close by the singing
of "God Save the King," by all pres-
ent, of whom there were 115.

HORSE HILLS.

The warm weather is rushing the crop ahead in fine style. Haying is now in full swing. Upland hay is very plentiful, and is always the best to be had for stock.

The new bridges built by the North-west government, replacing the old ones, are a credit to them and the men who built them. The government did the right thing when they made the change in employing men who understand bridge building instead of letting contracts to amateurs.

The new Clover Bar ferry will be a great accommodation to the people on both sides of the river. The grade will be kept in repair for traffic both summer and winter.

Many farmers are taking advantage of the hail insurance ordinance instituted by the Northwest government. It is a good thing when they made the change in employing men who understand bridge building instead of letting contracts to amateurs.

It is earnestly hoped that Mackenzie & Mann will get a move on and finish that 4 miles of road across the river. The people on the north side of the river have waited and suffered long for this important link of communication.

It will be named "The Missing Link." Prairie schooners are passing eastward, in large numbers, loaded with produce from Europe and settlers from "Uncle Sam's" domains.

An important enterprise is to be undertaken by the Ironstone Coal and Iron Mining & Development Co., Ltd. There can be no better chance today for capitalists to invest than in this new industry.

The property where the prospects are rich is in the "Four Mile Belt" where millions of acres of the finest land in the world will soon be under cultivation, and where millions of people will soon be using machinery of this kind.

This is the "Iron Age." At no time in the world's history was there so much demand for iron as present. There is no longer any doubt in the world and mountains of iron and limestone exist. There is no longer any doubt in the world and mountains of iron and limestone exist.

Fever in Horses.

Dr. G. G. Mearns, of Ponoka, recently wrote to the department of agriculture, Regina, for information regarding the disease which is so prevalent and fatal amongst horses in several districts of the country. The letter was forwarded to Dr. J. G. Rutherford, chief veterinary officer of the Dominion. Dr. Rutherford replied as follows; the reply being published in the Ponoka Herald;

Dear Sir—I have received from the deputy commissioner of agriculture at Regina, a copy of your letter to him of date, May 5th, describing a peculiar disease affecting the horses in your neighborhood. From the description you give I am almost certain that the trouble is due to the Seleretoma Tetracontum one of the most troublesome and dangerous parasites to horses given correspond with those shown by animals infested by this worm, while its life history also favors your theory as to the animals contracting the disease only when feeding in low marshy land. This worm however, does not pass into the blood vessels or lymphatic but encysts itself directly in the mucous membrane of the Colon and Caecum without entering the circulation. At least no wandering parasites of this kind have ever been observed. It remains imbedded beneath the mucous membrane until it attains sexual maturity spending the remainder of its life at large in the intestinal canal. The red worm you mention answers the description of this Seleretoma Tetracontum while the long white worm to which you allude is most probably the Ascaris Megalocephala which often reaches six to ten inches in length. It is possible, however, that the white worms mentioned may only be abnormally large individuals of the Seleretoma as experiments have demonstrated that it can be grown to double its original length and in so growing, loses the red color and becomes white. On the other hand, this worm might be the Strongylus Armatus which is not infrequently found in the same part as the small red worm.

As regards prevention it is advisable to keep if possible, the animals from grazing on low lying land and to furnish the water supply from deep wells instead of from sloughs and lakes. Sulphate of iron in doses of from one to two drachms given once or twice a week will also be found beneficial in preventing the parasite obtaining a foothold. Once an animal becomes infested, the treatment consists in the administration of anthelmintics, followed by cathartics and this again by mineral and vegetable tonics which have a double action in building up the system and rendering the intestinal canal an unpleasant residence for any of the worms which may have withstood the more active treatment. You will probably find most success by giving, as soon as you observe the first symptoms of the disease, iron sulphate in doses of from one to two drachms two or three times daily for a week. Follow this up by a dose of aloes, sufficient to cause mild purgation, the dose depending upon the age and size of the animal, after which a course of iron or copper sulphate with gentian, will be in order. I need not dwell upon the necessity of a liberal diet and pure water as also the most careful nursing in advanced cases. I trust that with your professional knowledge, you will be able to successfully combat the conditions produced by this dangerous parasite. I am reasonably certain of the diagnosis but if you are not satisfied, and will let me know when some case in your neighborhood is apparently about to succumb, I will try to arrange for one of our inspectors to visit the district and assist you in making further investigations into the nature of the disease.

What's a Picnic Without a Bottle of Pickles?

Picnic and Pickles are (almost) synonymous ideas. Think of one and you think of the other. But be sure and think of Pickles before you get to the Picnic, because its gloomy to think of the Pickles left behind. We sell those kinds of Pickles that are so good that you are sure not to forget them. A few of our specials are:

Cross & Blackwell's Chow-Chow, Onions, Walnuts, Mixed, Girkins, Piccalilli or Cauliflower.

Captain White's Oriental Pickle. Gillard's Celebrated Relish.

Charbonneau's Waldorf Relish, Chow-Chow. Fency Sweet and Fency Sour Mixed

Red Cross Sealers of Mixed or Chow-Chow. Octagons of Onions, Sweet Mixed, Sour Mixed

Lytle's GIANT BOTTLES Rowat's BROWNIE BOTTLES of Chow-Chow or Mixed. Chow-Chow, Mixed or Piccalilli.

MANZANILLA PITTED OLIVES. PATTERSON'S FANCY STUFFED PICKLES. MACRISCE CLUB RELISH. BENGAL CLUB CHUTNEY. HORSE RADISH, Plain or Mustard

We always carry a large variety of KETCHUPS, in Cans or Bottled.

Our stock of Pickles is such that we are in a position to supply

Among the Edmonton people present were noticed the following: John I. Mills, and family, K. W. MacKenzie, W. H. Parsons, and family, C. H. Davis, R. Second, M. L. A. Mr. Houston, A. E. Potter, Mrs. Prothero and family.

The following ministers were also present: Revs. D. G. McQueen, of Edmonton; Alex. Forbes, of Fort Saskatchewan; J. Gortley, of Sunnyside; P. I. Thacker, Methodist of Sunnyside; W. McLellan Potter, of Sturgeon.

Compliments were fully given to the Sturgeon cooks.

The old reliable S. S. F. B. C., met their Waterloo at the hands of "Wellington" Stewart and his gallant men.

Mr. A. E. Potter, K. W. MacKenzie and F. R. F. McKittick made themselves extremely useful during the sports.

The picnic was brought to a conclusion when W. McLellan Potter, pastor of the congregation, thanked all those who had helped to make the day the most successful ever known on the Sturgeon. God Save the King was heartily sung by the vast audience.

AGRICOLA—POSTPONEMENT

Owing to the frequency of stormy weather recently, it has been decided to postpone the garden party, and concert which was to have been held at the school house on the 30th July, until later in the summer, of which due notice will be given.

WEATHER AND CROPS

A light rainfall on Saturday night Sunday was damp and cloudy and a little more rain fell last night. There was not enough to injure the crops. The effect on the crop was very beneficial. The recent warm and extremely dry weather was liable to have caused the wheat which had grown very rapidly to mature so quickly that it would not fill well. There is now no fear of that, the day is cloudy and somewhat threatening. Crop is almost all in head.

Haying will be general this week. The yield is enormous and the quality first class. Timothy is a magnificent crop. Sales of mowers and binders have already equalled the total of last season.

Dr. Horsey, M. P., Killed

Owen Sound, July 23.—Owen Sound was shocked to-night by an accident in which Dr. E. H. Horsey, M. P., received injuries resulting in his death. Three minutes after 6 o'clock a fly wheel on the auxiliary engine in the Sun Portland Cement Works burst and the flying fragment struck the doctor on the right side of the head, cutting through the skull inflicting a fatal injury.

A car of baled timothy hay which arrived at Strathcona on Saturday evening, was loaded at High river, on the 27th June. A previous shipment was on the road from July 5th to July 27th.
